

Kindergarten Inventory Number Cards

2015-2016 NYC Performance Tasks

Directions for Use

These pages contain manipulative cards for the NYC Performance Mathematics Inventory in Kindergarten. The inventory question that each card is to be used with is listed below. Please separate the cards along the dotted lines and use in the administration of the inventory. Please note, the use of these cards are not mandatory. Teachers may instead use comparative manipulatives from their classrooms that students may be already familiar with.
